# Part A: Pupil premium strategy plan

## Statement of intent

We are committed to supporting all children, regardless of background or individual barriers to success, to make excellent progress and achieve strong outcomes across the curriculum. To achieve this, our Pupil premium strategy takes a range of approaches to ensure that all pupils, including those who are disadvantaged, consistently experience the highest possible quality of teaching, have access to the targeted academic support and benefit from a range of wider strategies including pastoral support for social and emotional difficulties, attendance and behaviour, impacting on success in school.

Evidence shows that high quality teaching has the greatest impact on closing the disadvantaged attainment gap. Consequently, ensuring the Highest possible quality of teaching is our primary objective. Not only will continuing to develop the quality of teaching directly impact the progress and attainment of our disadvantaged pupils, our non-disadvantaged pupils will also benefit.

The strategies we implement will reflect the common challenges and barriers to success and pupils' individual needs through careful assessment and partnership working with pupils and families.

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Assessment data shows that there is a gap between disadvantaged and non-disadvantaged pupils in Year 1 in reading, writing and maths. This gap narrows by the end of Year 2 and in 2023 reversed in reading and writing.
2	Assessment and observation shows there is an attainment gap between disadvantaged and non-disadvantaged achieving Greater Depth in reading and maths in Year 1. This gap narrows by the end of Year 2 and in 2023 reversed in reading.
3	Assessment and feedback identify that disadvantaged pupils in Year 1 perform less well maths. Within this group, there is a significant cross over with quite complex SEND meaning that access to the age-appropriate curriculum is required.

4	In Year 1 there is a significant difference in the number of greater depth writers (Y1 2023) between disadvantaged and non-disadvantaged.
5	Average attendance across all pupils remains above the national average however there continues to be a reduced rate for pupils who are disadvantaged.
6	Data collected on parental engagement with parents' evening, email communication and attendance to wider parental events is lower for families of disadvantaged families compared to non-disadvantaged.

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Improved writing, language and number outcomes for disadvantaged pupils in reception. Analysis (to be added each year)	Assessments and observations show improved outcomes in writing, language and number for disadvantaged pupils. This can be seen through progress data, engagement, portfolio scrutiny and formative assessment.
Improved reading attainment among disadvantaged pupils in Year 1 and 2.	KS1 reading outcomes show that more disadvantaged pupils are meeting the expected standard.
Improved numbers of disadvantaged pupils achieving 'greater depth' In writing (Y1 and 2) and across subjects.	KS1 outcomes show that more disadvantaged pupils are achieving greater depth.
Increased attendance for disadvantaged pupils.	Pupils who are disadvantaged attended closer to the rate at which non-disadvantaged pupils are.

## Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium) funding **this academic year** to address the challenges listed above.
