5th March 2021

Dear Parents and Carers

Next week, we will be launching ourselves into British Science Week with a range of exciting investigations and activities. These will be linked to this year's main theme of "Innovating for the Future" as well as to each year group's current learning theme. Overviews of our learning themes can be found on our website under the year group tabs.

Year R will be exploring floating and sinking, linked to their theme of "Under the Sea". Within the theme of "Poles Apart", Year 1 will be channelling their inner polar bear and Year 2 have lots of amazing mini investigations planned.

Mrs Curthoys, Mrs Wilby and Mr Mason will be encouraging the children to think about the little differences that they can make by making an Eco Pledge. This Eco Pledge could be:

- Turning off the light switch when you leave the room
- Turning off running water when you brush your teeth
- Doing a Litter Pick safely with your family
- Walking on small journeys instead of going in the car
- Using scrap paper or cardboard for artwork instead of always using new

Once you have made your Eco Pledge, please share it with us via yourpics@thesolentschools.org You could send in a photograph of a poster that you have made with your Eco Pledge on it or a photograph of you **DOING** your Eco Pledge! We would love to share your Eco Pledges with the rest of the school in our Assemblies.

We look forward to welcoming you all back next week for some hair-raising, exciting and entertaining Science investigations!

Yours sincerely

Mrs Pinhorne
Science Lead
